CLASS DESCRIPTION

Take your knowledge and use of planetary tuning forks one step further with this one-day class that introduces the Nibiru tuning forks. This class counts as one third of total completion for Acutonics Level IV. Two other one-day classes will be offered to finish your Level IV training.

The new planetary tuning forks of Nibiru are introduced allowing for re-patterning at the cellular and behavior levels in this one-day class. Students learn the science and theory of binary sun systems, precession and the effects of great cycle planets like Nibiru on human consciousness and civilization cycles. The myths, archetypes, and applications for the Nibiru/ohm interval are provided. The importance of combining the Chiron and Nibiru tuning forks are discussed with a practicum that helps install these very important frequencies for your physical, emotional and spiritual advancement.

Students will have the opportunity to learn distance Holographic sound techniques to send and receive the installation with a student partner in zoom breakout rooms.

As a student, you'll get a few great benefits from being here:

- A chance to take this class without tons of pre-requisites.....you need Level I & Level II. That's it! You will be provided with Chiron handouts from Level III for action keywords if you haven't gotten there yet.
